PATHWAYS

On February 11, we launched our new Rocky Mountain College Pathways website which you can find at: www.rockymountaincollege.ca

This new website replaces our previous two websites so that now, all our information is consolidated on one, greatly improved site. We hope you enjoy the new look, the better interface, and the clear navigation for prospective students, current students, and alumni.

On our homepage, we highlight stories of students who have studied with us. These testimonials illustrate the benefits our students receive by studying through Pathways.

We are also launching on the homepage our second animated video. **VIDEO 1** described what Pathways is, and

VIDEO 2 focuses on how our Pathways programs work. If you know someone who is interested in Pathways, send them to our homepage to see these short, informative videos.

To explain our Registration Process to interested students, we have an infographic to make things clear (see Academic Life tab on homepage). Throughout the site, we have provided easy-to-find information with all the details necessary for our programs, courses, and forms.

We are excited about how the site will serve the needs of our students, the constituency, and curious visitors much more effectively.

Be sure to check out the new website!

Pathways' Fund: A Key to New Opportunities

Are you a life-long learner? Have you ever considered taking a Pathways course to expand your Biblical knowledge or leadership skills? Are you interested in our Certificate, Diploma or Degree programs?

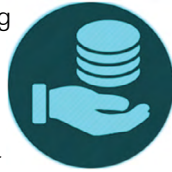

We know people lead very busy lives, full of multi-tasking and stresses which leave them little room for achieving personal goals. We also know finances and time can be barriers for people considering furthering their education.

Our **RMC Pathways' Fund** has been created to remove financial barriers and assist individual students and organizations to seize new opportunities for learning through Pathways. Our **Pathways' Fund** is for young students, adult learners, and leaders in organizations who want to provide professional development to their staff, or access it themselves.

If your organization is a Christian ministry, your organization can apply for Pathways' Funds.

Or, you could work with Pathways to develop a course specific to your denomination that your staff would take. You could encourage your staff to take a Pathways course for professional development. Your organizations can even use Pathways resources to set up a Pathways learning site at your location, to provide continuing education for your staff members.

Our Pathways' Fund is a resource for you to pursue new opportunities—personally, or for your organization. If you would like to learn more about our **Pathways' Fund**, please see the information and application form on our new website. Go to **Financial Help** on our website homepage.

On the Road for Rocky

Over the past month, several of our staff have been on the road for Rocky. We were represented at Missions Fest in Vancouver as well as the BC Camping Association Conference and the Fellowship of Christian Camps BC Conference. In Alberta, we had staff attending Missions Fest Alberta and the large worship conference, Breakforth in Edmonton. These were great opportunities for us to connect with existing and potential partners, alumni and prospective students. Robert Harris, our Enrolment and Marketing Director is pictured here at Missions Fest Vancouver with Chris Wiens, Assistant Director of Multi-nation Missions Foundation. MMF has missionaries serving all over the world who may be interested in accessing Pathways courses while on the field.

SAVE THE DATE!

Please note in your calendar the date for our annual Medicine Hat banquet which will be held on Wednesday, June 1 at Chinook Village. We hope to see you there!
